

**BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO**

IN THE MATTER OF THE PROPOSED)
CREATION OF A WATER MEASUREMENT)
DISTRICT FOR THE MEASUREMENT AND)
REPORTING OF GROUND WATER RIGHTS)
IN THE UPPER BIG AND LITTLE WOOD)
RIVER BASINS)

NOTICE OF PUBLIC HEARING

The Director of the Idaho Department of Water Resources (“Director”) is authorized to create water measurement districts and have direction and control of the measurement of water diverted from all public water sources, including ground water. Section 42-706, Idaho Code provides authority for the Director to create a water measurement district provided that any appropriation or use included in a water district created pursuant to chapter 6, title 42, Idaho code, shall not be included in a water measurement district.

NOTICE IS HEREBY GIVEN, pursuant to Section 42-706(2), Idaho Code, that the Idaho Department of Water Resources (IDWR or Department) will conduct a public hearing, as follows:

PUBLIC HEARING FOR PROPOSED CREATION OF A WATER MEASUREMENT DISTRICT FOR GROUND WATER RIGHTS IN THE UPPER BIG AND LITTLE WOOD RIVER BASINS:

**6:30 PM, August 16, 2011 at the Wood River Middle School, Room 860
900 2nd Ave North, Hailey, ID**

IDWR proposes creation of a water measurement district for the purpose of measuring and reporting ground water right diversions located within the Upper Big and Little Wood River Basins as shown on the map in Attachment A of this notice. The proposed district is located within IDWR Administrative Basin No. 37 and outside of the Eastern Snake Plain Aquifer (ESPA). Several factors affecting the water resources in the Upper Wood River Basins have focused the IDWR’s attention on the need to begin the measurement and reporting of ground water pumping in the area. These factors include:

1. The population in the basin continues to grow and it needs water. Consequently, finite supplies are being stretched.
2. A 2007 technical study by the United States Geological Survey indicates that flows in the Big Wood River and its associated aquifer are declining over time.
3. Surface water users have requested the Department to implement conjunctive administration of ground water and surface water resources in the Upper Big and Little Wood River Basins, including the initiation of measurement and reporting of ground water withdrawals.
4. The Snake River Basin Adjudication is nearing completion in the Upper Wood River Basins.
5. IDWR has under consideration a petition to expand the area of common ground water supply for the ESPA. The Big and Little Wood River Basins contribute water to the ESPA.
6. Surface water rights and diversions in the proposed water measurement district are already measured and administered by existing water districts. Ground water rights and diversions in the lower portion of the Big and Little Wood River Basins overlying the ESPA in Basin No.

36 and the lower portion of Basin No. 37 are measured and administered by Water District No. 130. Most ground water rights in the proposed measurement district are not measured or administered by an existing water district. Creation of a water measurement district is required in order to begin proper administration of ground water uses and ground water rights in the proposed measurement district area.

Information and testimony presented at the hearing on August 16, 2011 will create a record upon which the Director will rely to determine whether the proposed action for creation of a water measurement district is appropriate. It is important that holders of ground water rights understand the proposed action and participate in the hearing. Allen Merritt, IDWR Southern Regional Manager, will serve as the hearing officer. Persons attending the hearing will be provided an opportunity to make an oral presentation regarding the proposed action. Written comments may be submitted to the hearing officer at the hearing or at any time prior to the close of the written comment period on August 26, 2011. Written comments not presented at the hearing should be sent to the Interim Director, Department of Water Resources, PO Box 83720, Boise, Idaho, 83720-0098.

The hearing will be conducted in accordance with IDWR's Rules of Procedures (IDAPA 37.01.01). These rules may be viewed from the State of Idaho Department of Administration's website as follows: www.adm.idaho.gov/adminrules/rules/idapa37/0101.pdf

The hearing will be conducted in a facility that meets the accessibility requirements of the Americans with Disabilities Act. Should you require special accommodations in order to attend, participate in, or understand the hearing, please contact the Department of Water Resources at least five days prior to the hearing.

A copy of this notice has been sent to holders of ground water rights whose diversions are located within the boundaries of the proposed district shown in Attachment A, excluding de minimis ground water domestic and stock water rights and non-irrigation use ground water rights with rates of diversion less than or equal to 0.24 cubic feet per second (approximately 108 gallons per minute). This notice has been sent to all holders of ground water rights that include an irrigation use component regardless of the number of acres under each right. IDWR proposes that all ground water irrigation rights be included in the measurement district. IDWR recognizes that certain ground water rights within the proposed measurement district are already administered and measured by the Water District 37 watermaster. Owners of such rights may receive this notice but IDWR proposes that those rights continue to be administered and measured by Water District 37.

If you have questions concerning this notice, please call the IDWR state office at (208) 287-4800 or the IDWR regional office in Twin Falls at (208) 736-3033.

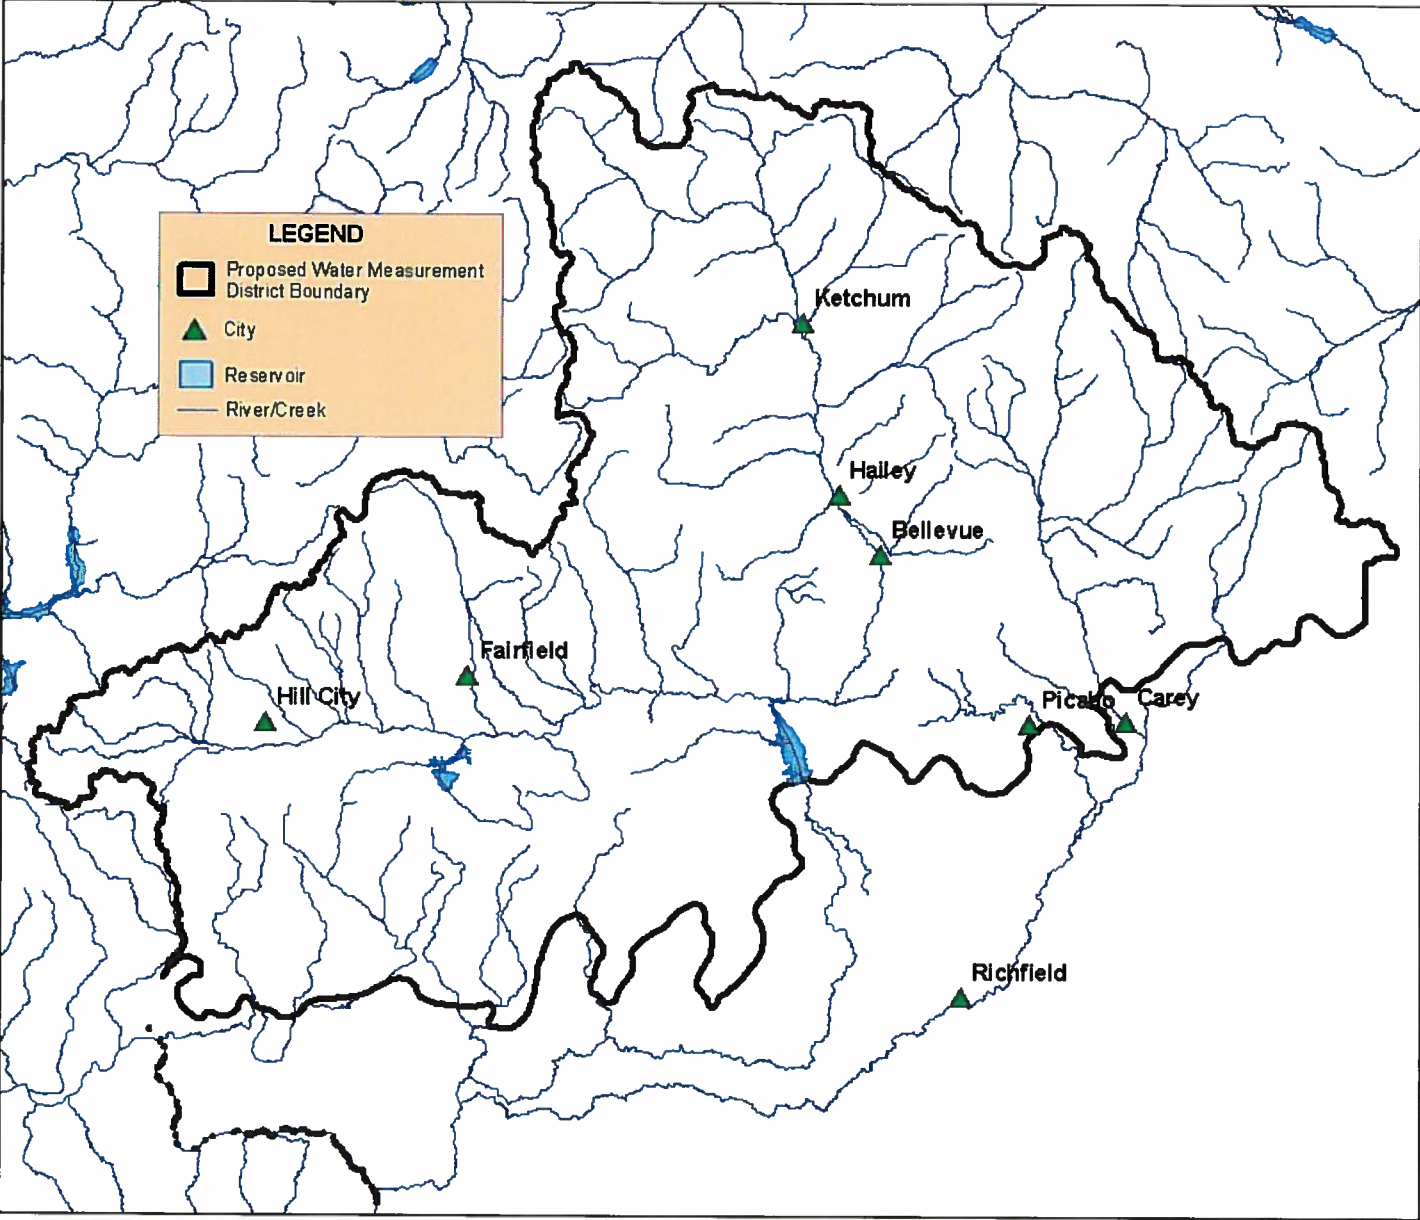

DATED this 25th day of July, 2011

Gary Spackman,
Interim Director

ATTACHMENT A

PROPOSED WATER MEASUREMENT DISTRICT BOUNDARY

CERTIFICATE OF MAILING

I DO HEREBY CERTIFY that on this 27th day of July, 2011, the attached Notice of Public Hearing, In the matter of the proposed creation of a water measurement district for the measurement & reporting of ground water rights in the Upper Big & Little Wood River Basins, was served upon the following individuals, unless otherwise noted, by placing a copy of the same in the United States Mail.

A handwritten signature in cursive script that reads "Christine Roberts". The signature is written in black ink and is positioned above a horizontal line.
